

Little Nap Recliners:

Rendering Comfort at the Top-Notch

From simple recliners to stress-free motorized models; from pushback and auto-lift to the softest feather-light comforters; from elegant royal models to amusing swivel glider, its range of recliners will surely leave you spoilt for choice. In this era of modernity and entertainment, as the recliner market is Niche and purely untapped, Little Nap contributes largely spreading its wings wider only to escalate your leisure experience with grandeur and absolute comfort.

With a valued experience of over 7 years, the powerhouse brand remains the most preferred choice for recliners in cinemas, multiplexes, home theatres, living rooms, hospitals, spa, automotive etc. For multiplex owners looking to deck up their place with recliners in custom-specifications, Little Nap offers 3D layout assistance, drawing and consultation support that provide an overview of the final arrangement before you go ahead with the plan. From simple recliners to stress-free motorized models from pushback and auto lift to softest feather-light comforters from elegant royal models to amusing swivel glider, its range of recliners will surely leave you spoilt for choice.

Customer satisfaction

Being the most important factor to make the brand grow in the market, satisfying the clients in all aspects regardless of it being the product on the whole or the services related to it is the prime responsibility being taken. The wholesome experience is what Little Nap thrives to constantly provide. Keeping a customer-focused approach, the customer needs are welcomed and efforts are being put across not just to meet but to exceed their expectations. Be it in the quality

of their products or customization of recliners, they offer numerous accessories and features to add elegance and the signature style to their chairs.

Product quality

Raw materials, finest handcrafters and highly equipped manufacturing facilities that are globally renowned are being used to carve out the masterpieces. Exclusive factory visits for their clients are provided to see and experience the manufacturing

standards up close and personal. They hold product design patents and deploy accessories and raw materials tested and certified internationally. Also to emphasize, Little Nap uses materials and measures that are

"We are the creators of the most relaxing products ever made; still we choose to remain restless to achieve more."

Founder & Director, Little Nap Recliners

lead-free and which is completely safe for health.

Product delivery commitment

Assurance to delivering the best has been their constant promise throughout as the most important issue that concerns the customers is time. Their on-time delivery and the ability to meet customer demands and deliver the services and products to the customer punctually has always been highly appreciated.

After sales support

The customer service representative interacts with customers on calls to provide them with information to address inquiries regarding products and services. In addition, they deal with and help resolve any customer complaints and then our technician visits the premises whenever required.

Seating configuration consultancy

Other than just selling the chairs to the consumer, consultation to the client in terms sizes, placement, accessories, utilities, their requirement, designs, and many more aspects are taken care of by team before finalising the deal.

Customization

Little Nap provides customization to any extent with regards to the recliners. As the chair is a personal space for the consumer, it has to be as per the choice of the consumers alone. Whether it being stitches of the thread colour, design or softness of the chair, everything is done as per the consumer demand. Apart from this, every accessory is custom designed to meet the discerning needs of the customer. Ventilated seats, dual tone leatherette seats, fire retarded upholstery (including quilting and polyfills), have been custom designed to add to the level of safety and comfort while seating.

The entire customized range of luxury recliners adds to the sophistication that modern multiplexes are well-known to stand out for. Little Nap understands the intricacies of the multiplex business. The experts help consumers across the planning stage and make intelligent use of spaces with its bespoke solutions. The major game changer is the Innovation which we keep on introducing in our chairs and has now become a pre-requisite. From sensors to chillers, wireless charging to ventilated seats, technology from around the world are handpicked and introduced in their recliners.

New development for cinema clients

Cinema being a commercial environment, it becomes very necessary to mould as per the audience. So we tend to develop many new things, which are not on the base place, especially for the cinema owners, just to enhance the level of luxury offered by them to the patrons.

Varied seat sizes

The chairs are altered to special sizes which fit in the cinema layout, provide comfortable movie experience and increase the seat count in the cinema.

Design development

A totally new design and concept is also made to keep the cinema design frame and legacy intact.

Product range

Little nap has a wide product range, in terms of chair design and accessories, which helps the clients in selecting the most suitable and preferred recliners for them. Also, they can mix two designs as per their wish and can customize the same as well.

This perfection and passion for creating such marvels of sheer comfort has owned Little Nap some of the biggest names in its clientele list along with thousands of customers.

Few projects to say:

Cine Grand, SSRM, Bulgaria

An export cinema project at the South Sofia Ring Mall in Bulgaria has a count of 450 uniquely designed recliners allocated in 6 different auditoriums. To elaborate further these recliners are fully fire retardant right from its raw materials utilized to its luxurious upholstery on the out. Recliners for the handicapped sector, as mandated by the European norms have also been worked upon in order to provide the same level of comfort for them as well.

Star Cinema, Dubai

A luxurious cinema project, Al-Nisr Cinemas is located at the Central Mall, Abu Dhabi, UAE. With 26 lavish double arm recliners in leatherette of red, these recliners speak luxury with its beauty. A double Swivel table and

call button system (wireless) are the in-built features for easy accessibility. With a special cabinet made to accommodate a set of 2 or 4 recliners and being a 26 seater Audi, its compact size makes it all the more comfortable for personal screenings.

PVR Gold Class, Lulu Mall, Kochi

The cinema has 107 recliners installed making it one of the most premium and prestigious projects to have worked upon. It dons a unique seating concept along with the amalgamation of the theme and overall customer experience at PVR. Also, there is always a thorough sampling along with the precise selection of leather and other accessories to choose from. To further elaborate, Little Nap includes its addition of side tables, lamps and recliners having features like Dual Motor, Food Tray, Seat Calling System, Caddy Torch etc. only to upgrade the ambience of this theatre.

Carnival Cinema, TGIP, Noida

An innovated concept wherein both recliners and sofas are being installed, although there is a clear

differentiation for the recliners to stand out from sofas in-terms of upholstery, features and accessories. Reverse engineering with dimensions has been keenly worked with to fetch out the maximum seating capacity in a single audi. The recliners show splendid features such as luxurious stitch design, food tray, back-lit numbering etc. with a special seat size of 21" for this project.

Platinum Cinema, Jammu

Intricate work on 64 recliners with all of them featuring double arm shows no compromise on comfort for a single audi. Side tables and lamps have been added to upgrade the ambience of the theatre. The-call-on-seat system was also installed to make just the best cinema in the state.

A team that has been innovating ways to take comfort to a whole new level, today forms one of India's most preferred recliner brands. With a wide variety of exquisite and smart recliner furniture, it creates relaxation in every shape and mode. What separates this brand from the others is its capability of customizing the recliners according to its customer's intricate needs.
